(c) in what way the new strategy is likely to be an improvement in the existing framework to secure direct foreign investments?

THE MINISTER OF STATE IN THE MINISTRY OF EXTERNAL AFFAIRS (SHRI SALEEM IQBAL SHERWANI): (a) The experience of only a small percentage of approved foreign investment proposals transforming into actual investments has been attracting the attention of this Ministry also. It has been felt that approved foreign investment proposals need post approval monitoring. Ministry of External Affairs is working towards this objective through our Missions abroad who play a key role in keeping in touch with the foreign investors and facilitating implementation of their approved proposals through various stages. The Missions also act as 'match makers' where possible or necessary.

(b) Our Missions abroad have been taking increasing interest in promoting trade and economic relations. There is special focus on developing trade links with countries in SAARC, South-East Asia, Asia-Pacific, Central Asia, the Gulf, Africa and Latin America. In the field of foreign investments, an "escort service" is proposed to be provided through the apex chambers to major investors.

(c) Due to a liberalized economic environment in India there is ample interest on the part of foreign business houses to invest in India as evidenced by the number of applications and approvals. however, actual investment inflows are not yet to levels the Government would like to have. This is mainly due to unfamiliarity of procedures on the part of investors. Our effort is to ease this problem so that the foreign investor who is ready to invest does not shy away and is informed and guided properly till the actual implementation of the project.
